Rice merchants in Osaka, Japan, had already set up the world's first futures market. Rice was so important in Japan at the time that it was almost a form of currency in itself.

- (A) He paid the farmers ten percent in advance and owed them the rest. After the harvest came in, he stored the rice for several months, selling it for a tidy profit once the north's poor harvest had driven prices up.
- (B) The friend was passing through Nagoya on a journey. He reported that the rice harvest in the north was going to be bad. Chozaemon promptly bought the future Nagoya-area rice harvest.
- (C) The idea of forward trading — buying now goods that are to be delivered later — is said to have originated around 1620, when a Nagoya rice merchant named Chozaemon met a friend from Sendai, in the north of Japan.

Many states ban people from riding motorcycles without helmets. To some people, however, these bans are questionable. They ask: If people want to take risks, shouldn't they be allowed to do so?

- (A) This approach imposes some costs on those who want to feel the wind in their hair. But requirements of this kind are less intrusive than a ban — and might do a lot of good as well.
- (B) To date, an intense debate has separated those who support such bans from those who insist that the government should let people do what they want. The columnist John Tierney has suggested a novel way that states might promote safety while maintaining freedom.
- (C) The basic idea is that riders who do not want to use the helmet have to get special licenses. To qualify for the license, a rider would have to take an extra driving course and submit proof of health insurance.
