There are much more illustrations in color in this edition than in the twelfth edition, but the text remains unchanged. The other new feature is the chronological charts on pages 655-663. Seeing the positions of a few landmarks in the vast picture of history should help the reader to counteract the perspective illusion which gives such importance to recent developments at the expense of the more distant past. In thus stimulating reflections on the time scales of the story of art, the charts should serve the same purpose for which I wrote this book some thirty years ago. In addition, I have added a Supplement on “New discoveries,” with a brief review on archaeological finds to remind the reader of the extent to which the story of the past has always been subject to revision and unexpected enrichment.

- ① 도서 개정판의 특징을 설명하려고
- ② 최근의 인류학적 발견을 소개하려고
- ③ 역사관 정립의 중요성을 강조하려고
- ④ 신간 서적에 대한 서평을 부탁하려고
- ⑤ 효율적인 도서 정리 방법을 제시하려고

2 밑줄 친 부분이 가리키는 대상이 나머지 넷과 다른 것은?

In 1807, Napoleon Bonaparte wanted one thing out of the Russian Czar Alexander I: a peace treaty. Instead of proposing this thing directly, Napoleon decided to seduce the czar. Using polite social encounters and friendly conversations, ① he went to work. A comment here and there seemed to suggest a linking of the destinies of France and Russia. Just before they were to part one evening, he talked of ② his desire for the peace treaty, and then excused himself for bed, leaving the czar to sleep on this. Next day ③ he escorted the czar to a play on the themes of glory, honor, and empire. In later conversations, he could disguise ④ his intentions under the cover of discussing the play. Within a few weeks, the czar was speaking to his ministers of a treaty with France as if it were ⑤ his own idea.
